Education

Sardar Vallabhbhai National Institute of Technology, Surat

Aug 2023 – May 2027 (Expected)

Bachelor of Technology in Artificial Intelligence

CGPA: 7.98 (Till Sem 6)

Experience

Wells Fargo

May 2026 – Present

Technology Program Intern

Bangalore, India

- Accelerated the **DocForce migration** by closing **7+ Jira stories**, implementing **20+ frontend features and fixes** deployed successfully to production.
- Engineered **100+ Playwright E2E test cases** spanning **40+ critical user journeys** and **8+ application modules**, substantially improving automated regression coverage and release confidence.
- Automated test genration using **Playwright MCP Server**, reducing manual testing effort by **40%** and speeding up debugging workflows.

Genus Power Infrastructures Ltd

June 2025 – July 2025

AI-ML Intern

[Documentation](#)

- Designed a multilingual AI support agent using **LangChain**, **Groq APIs**, and a multimodal **RAG pipeline**, enabling instant query resolution across **1,000+ document chunks** with **page-level PDF redirection** and persistent chat history.
- Created role-based dashboards using **React.js** and **REST APIs** for query monitoring, broadcast alerts, and automated HR email workflows while reducing manual operations by **50%**.

Projects

EEG-Based Depression Detection Using CNN-BiLSTM

Accepted, 2026

ComSIA Conference 2026 (Springer Proceedings) | [Certificate](#) | [Documentation](#)

- Proposed a hybrid **CNN-BiLSTM** architecture for EEG-based depression detection, achieving **96.2% accuracy** and a **0.95 F1-score** on the **128-channel MODMA EEG dataset**.
- Benchmarked against traditional machine learning approaches, achieving **94.7% accuracy** with **XGBoost** and outperforming previously reported results on the MODMA dataset.

Udaan – AI Assistant for Rural Women | [Website](#) | [GitHub](#)

Feb 2026

Technologies: Python, Whisper, Gemini API, Shiprocket API, Serp API, Pywhatkit, Web Scraping

- Developed a multimodal AI pipeline using **Whisper** and the **Gemini API** to generate e-commerce product descriptions from **voice inputs** and **product images**.
- Implemented **one-click Shopify listing automation** with **93% accurate** competitor-based price prediction, integrated **Shiprocket API** shipping and **Serp API + pywhatkit** marketing workflows, reducing manual effort by **70%**.

Connecting the Dots | [Website](#) | [GitHub](#)

Aug 2025 – Sep 2025

Technologies: Python, FastAPI, LangChain, FAISS, PDFPlumber, Docker, Gemini 2.5 Flash, Azure TTS

- Built a multimodal **RAG-based document intelligence platform** using **Python**, **LangChain** and **PDFPlumber**, enabling semantic search across **30+ PDFs** with **6–8 second** response latency.
- Engineered a **heading extraction module** achieving **< 3 second** processing per document while implementing **7+ enterprise AI features**

Technical Skills

Programming Languages: Python, C++, Java, JavaScript, TypeScript, SQL

AI / ML: Reinforcement Learning, Deep Learning, Machine Learning, Big Data Analysis, Generative AI, PyTorch, LLMs, Mcp, TensorFlow, Keras, Scikit-Learn, LangChain, Playwright

Web & Frameworks: Next.js, React.js, Node.js, FastAPI, Angular, MongoDB, PostgreSQL, Tailwind CSS

Tools & Concepts: DSA, DBMS, OOPs, Operating Systems, Git & GitHub, OpenCV

Achievements

Winner – Adani PowerMind Hackathon 2026: Led a team of 5 to victory among 500+ participating teams.

Top 100 – Adobe India Hackathon 2025: Selected among the top teams nationwide for an AI-powered solution.

Winner – WWT Hackathon 2025: Won among 1,500+ participating teams; hosted by World Wide Technology & Shooting Stars.

Amazon ML Summer School 2025: Chosen for Amazon's prestigious Machine Learning Summer School program

Positions of Responsibility

Community Lead, Google Developer Group on Campus, SVNIT

Sept. 2025 - Present

Training and Placement Coordinator, AI Department, NIT Surat

Jan 2025 - Present
